Profile Summary

Computer Science undergraduate with expertise in Java, Spring Boot, Machine Learning, and Cloud Computing. Developed multiple full-stack and backend applications, including real-time chat systems, URL shortening services, and stock prediction models. Strong analytical and problem-solving abilities, complemented by AWS certifications and a passion for scalable, secure, efficient software solutions.

Education

VIT-AP UNIVERSITY, Amaravati

Sep 2023 – Present

B.Tech in Computer Science and Engineering – CGPA: **9.01**

Sri Chaitanya Junior College, Narasaraopet

2021 – 2023

Intermediate (MPC) – Percentage: **97.7% (977/1000)**

Skills

Programming Languages: Java, Python

Databases: MySQL, MongoDB, Neo4j, MonetDB

Web Development: HTML, CSS, JavaScript, REST APIs

Tools: AWS, Git, GitHub, Postman, Render, VS Code

Core CS: Data Structures & Algorithms, Problem-Solving, DBMS, Artificial Intelligence & Machine Learning

Projects

Chat App Backend | *Java, Spring Boot, WebSocket, STOMP, MySQL*

- Built a real-time chat backend with instant messaging, multi-room support, and user authentication using WebSocket and STOMP for bi-directional communication.
- Designed REST APIs for user and room management; persisted chat history in MySQL for reliable, low-latency delivery.

URL Shortener | *Java, Spring Boot, MySQL, JWT*

- Developed a secure URL-shortening service with custom aliases, click analytics, and JWT-based authentication.
- Implemented RESTful APIs and an efficient redirection workflow backed by MySQL for user-specific URL management.

Stock Price Prediction | *Python, Scikit-learn, Flask*

- Engineered a machine learning pipeline for stock price forecasting, applying regression techniques and automated feature engineering on historical financial data.
- Automated data preprocessing and deployed the model via a Flask web application with interactive dashboards for visualizing predictions and market insights.

Achievements & Certifications

- Solved **300+** problems on **LeetCode**, strengthening core Data Structures & Algorithms proficiency.
- Certified **HackerRank SQL (Advanced)**.
- Secured **Rank 1776** in AP EAPCET 2023.
- Oracle Certified **Generative AI Professional** and **Generative AI Foundations Associate**.
- AWS Academy Graduate – **Cloud Foundations** and **Cloud Architecting**.
- **Udemy Certified Oracle Java SE 21 Developer Professional** (1Z0-830).
